

ABOUT US

Clei Group is a Service-Disabled Veteran-Owned Small Business (SDVOSB) established in 2015. We are a leading provider of procurement, supply, and distribution services for a variety of industries, including government agencies. We specialize in providing electronic devices, tactical communication devices, Medical PC, Medical and surgical devices and disposables, as well as IT Support services such as data management and business intelligence.

Since our founding, we have been dedicated to providing our clients with the highest quality products and services. Our team of experts has over 20 years of experience in the industry and a deep understanding of the unique needs and requirements of government agencies. We are well-versed in federal procurement regulations and procedures and have a strong network of trusted suppliers to ensure that we can meet all of our clients' needs.

We are committed to providing our clients with the best value for their procurement dollar and to delivering high-quality goods and services on time and within budget. We pride ourselves on our ability to provide our customers with the right products at the right price, and we are always looking for ways to improve our services."

OUR SERVICES

Clei Group offers a comprehensive range of services to meet the needs of federal government agencies. Our services include:

Transportation and Logistics: We provide end-to-end logistics solutions, including transportation, warehousing, and distribution. Our team of logistics experts ensures that your goods are delivered on time and in perfect condition.

Inventory Sourcing: We have a team of sourcing specialists who are experts at finding the right products at the right price. Our goal is to help our clients save money and reduce their inventory costs.

Procurement and Supply: We offer a full range of procurement and supply services, including sourcing, purchasing, and contract management. We are well-versed in federal procurement regulations and procedures and can help our clients navigate the process.

Information Technology: We offer data analytics services to help our clients make informed decisions based on their data. Our team of IT experts can help you analyze your data, create reports, and identify trends.

We are committed to providing our clients with the best value for their procurement dollar and to delivering high-quality goods and services on time and within budget. We have a strong network of trusted suppliers and are always looking for ways to improve our services."
